

CREATE AND CONFIGURE IBM CLOUD SERVICES

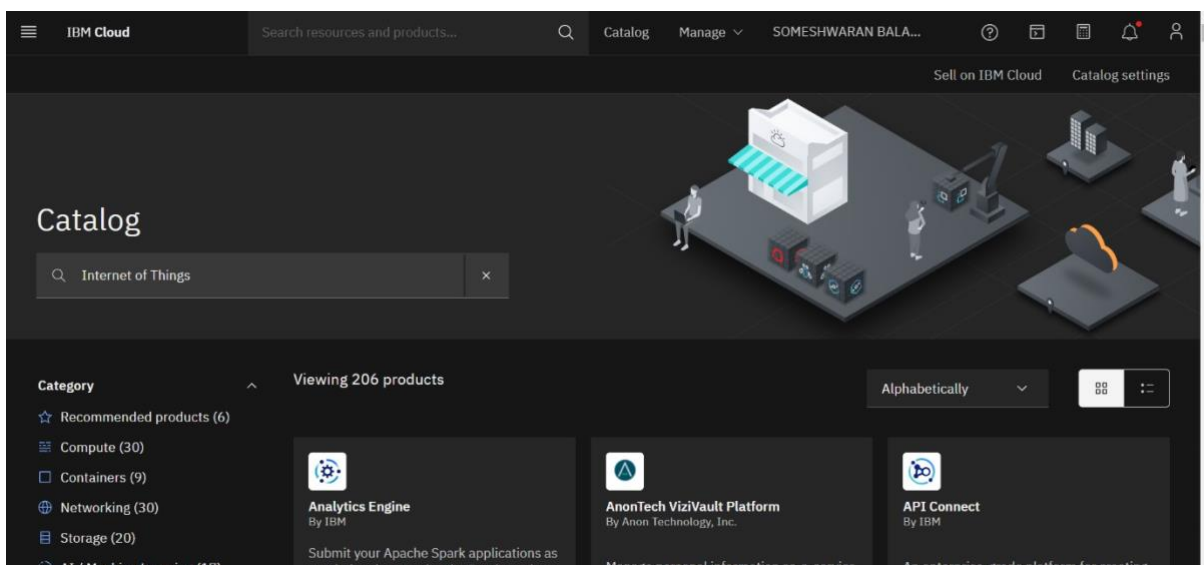

Creating IBM Watson IOT Platform and a Device

Date	27Oct 2022
Team ID	PNT2022TMID39327
Project Name	Project -Smart farmer-IOT enabled smart Farming Application

Step:1 Log in to IBM Cloud Using Registered Id

Step:2 Click on the Catalogue And Search For Internet of Things

Step: 3 Choose the Location As London, Select Free Plan and Click Create Button

Internet of Things Platform

This service is the hub of all things IBM IoT, it is where you can set up and manage your connected devices so that your apps can access their live and historical data.

Create | About

Type: Service

Provider: IBM

Last updated: 08/15/2022

Category: Internet of Things

Compliance: IAM-enabled

Location: London

Select a location: London (eu-gb)

Select a pricing plan: Lite

Plan: Lite

Features: Includes up to 500 registered devices, and a maximum of 200 MB of each data metric

Pricing: Free

Summary

Internet of Things Platform | Free

Location: London

Plan: Lite

Service name: Internet of Things Platform-zd

Resource group: Default

Existing Lite plan instance

You can have only 1 Lite plan instance of this service per resource group. [Delete](#) your current Lite plan instance in Default resource group to create a new one, or [view the existing instance](#).

☐ I have read and agree to the following license agreements: [Terms](#)

Step:4 Click on Launch Button Then Your IBM Watson IoT Platform Will be Opened

IBM Watson IoT Platform

Browse | Action | Device Types | Interfaces

Browse Devices

All Devices | Diagnose

This table shows a summary of all devices that have been added. It can be filtered, organized, and searched on using different criteria. To get started, you can add devices by using the Add Device button, or by using API.

Search by Device ID

Device Simulator: ☐

Device ID	Status	Device Type	Class ID	Date Added
12345	Disconnected	MyDeviceType	Device	Oct 27, 2022 8:04 PM
54321	Disconnected	TestType	Device	Nov 4, 2022 11:52 PM

ID: 17lsro

Browse Action Device Types Interfaces

Add Device

Identity Device Information Security Summary

There are two options for selecting a device authentication token.

Auto-generated authentication token (default)

Allow the service to generate an authentication token for you. Tokens are 18 characters and contain a mix of alphanumeric characters and symbols. The token is returned to you at the end of the device registration process.

Authentication Token 4546466435

Self-provided authentication token

Provide your own authentication token for this device. The token must be between 8 and 36 characters and contain a mix of lowercase and uppercase letters, numbers, and symbols, which can include hyphens, underscores, and periods. Do not use repeated characters, dictionary words, user names, or other predefined sequences.

Make a note of the generated token. Lost authentication tokens cannot be recovered. Tokens are encrypted before being stored.

Authentication tokens are encrypted before we store them.

Step:7 click on Next & Finish Button Ur Device Will Be Added
